

🌸 Little Things to Do in the Fairy Garden 🌸

Rosalie's Gentle Garden Challenge

You don't need an enchanted garden to discover a little magic. Slow down, look closely and see how many of these gentle garden activities you can complete.

☐ Grow a flower 🌸

Plant something beautiful and help care for it as it grows.

☐ Watch the bees 🐝

Notice how they buzz from flower to flower, helping the garden bloom.

☐ Spot a butterfly 🦋

Watch quietly and see where it lands.

☐ Plant a seed 🌱

Try flowers, herbs or vegetables—even a little pot on a windowsill can become a tiny garden.

☐ Learn something new about nature 🌻

Discover the name of a flower, bird, butterfly or tree.

☐ Do something kind for the garden 💖

Fill a bird bath, pick up some litter, water a thirsty plant or leave flowers for the bees.

💖 A little reminder from Rosalie...

The most magical gardens aren't always the biggest or the prettiest. They're the ones where someone takes the time to notice the little things.
